# Mentee

## Quincy:

- 1. Micro Mentorship page move "Explore Packages" above "session breakdown"
- 2. Consider increasing text size in header section (homepage)
- 3. Visual design is appealing/aesthetic and clear sections make it easy for user to process information
- 4. CTA buttons at bottom of page are convenient and allow for users to sign up without having to scroll to the top
- 5. Being able to click on mentors picture to learn more about them would be nice

#### Gio:

- 1. Visual design is appealing and professional (unique look)
- 2. Sections are informative and to the point
- 3. Easy to navigate with minimal tabs
- 4. He put emphasis on athlete's limited time and how a short program length during the off-season is ideal/necessary for active participation
- 5. Face to face (or virtual) is key to asking pressing questions in real time

#### Nevin:

- 1. Separate log in/ sign up button
- 2. Copy could do better in helping to explain the program and velosaty, finds the website unclear
- 3. Would want to know more information about mentors, who they are, how they're picked, etc.
- 4. Overwhelming amount of CTA buttons, and CTA buttons have conflicting copy
- 5. Green is used as the primary color but it's used so much it doesn't reflect it's importance

### Tim:

- Was confused about what the mentorship package on Career Transition entailed. Could improve title of mentorship package currently named Career Transition (updated examples: Career Building? Career Development? Career Planning?)
- 2. Looked at About Us page for information on company offerings. Could add a button/information about the mentorship package/offerings on the About Us page
- Looked for social media on About Us page. Could add social media info to About Us page
- 4. Emphasized that he thinks the program should be minimal/easy as possible for the student athlete so they'll actually do it
- 5. Liked the overall look of the site

### Cameron:

- 1. Likes the images of the people and the overall visuals of the page. Enjoys the dark mode.
- 2. Felt that the site shows crucial information (not too much) and answered all his questions.

- 3. Successfully completed all the tasks in the expected ways.
- 4. Utilized the four steps section and the sessions section on the mentorship page the most.
- 5. Career Transition is a confusing title as they werent sure what was offered. Thought maybe resume help might of been under that or personal marketability.

# **Anthony:**

- 1. The home page gives you all the information, gives you a rundown of the whole thing
- 2. Had a clear idea of what Velosaty was doing after looking at the homepage information
- 3. Clicked on the About page instead of the Micro mentorship page while asked about what company offers
- 4. liked the Micromentorship page session breakdown
- 5. didn't understand the question as we used "currently offered" and not "packages" or anything more hinting toward the answer he is not able to locate it.
- 6. Hard time to find social media on the website
- 7. Liked the overall website and concept behind Velosaty

# **Mentor**

### Will lannuzzi

- Dashboard layout was clear, intuitive, and easy to navigate.
- Goal tags and mentee profiles were helpful for quick understanding.
- Session notes feature was highly appreciated and rated 10/10.
- Quick contact options (LinkedIn, email) were useful.
- Resume/documents section needed clearer labeling and visibility.
- Participants wanted the ability to create custom tags in notes.
- Need for admin/supervisor access for compliance and oversight.
- Visibility of session notes for mentees needed clarification.
- Suggested a to-do/checklist feature for tracking mentee tasks.
- Strong interest in platform adoption if admin features are added.

### **Tom Webb**

- Found the dashboard useful and visually appealing at first glance.
- Appreciated consolidated layout and session notes clarity.
- Mistook goal tags for buttons—suggested clearer visual distinction.
- Strong need for onboarding/tutorial to guide new users.
- Liked contact options (e.g., LinkedIn), but wanted improved visibility.
- Recommends mentees be able to tag mentors directly in the platform.
- Found session notes intuitive with helpful editing and filtering.
- Suggested adding chat/email feature for smoother communication.

- Valued ability to share resources with mentees.
- Expressed high interest in using the platform for mentorship organization.

### Gloria

- Found dashboard clear but preferred a lighter theme for a more welcoming look.
- Suggested adding mentee majors to homepage for quick reference.
- Wanted more personal info in profiles, like discovery questions and accomplishments.
- Struggled to find and understand session notes—requested clearer labels for actions.
- Recommended adding a "personal growth" section to boost mentee confidence.
- Suggested program managers have access to session notes for better oversight.
- Preferred clearer contact method icons with improved labels.
- Emphasized need for a mentor support section with discovery questions.
- Rated session notes 7/10; found them helpful for managing multiple mentees. Highlighted the importance of face-to-face meetings to build rapport.
